

Commitment to an Important Cause

Making a difference in the world is easy...and it saves you money!

Every Krystal Planet purchase you make contributes to building utility scale wind turbines to help convert America to clean, renewable energy.

The amount of the contribution varies depending on the price of the product, but is as high as 15% of the product price.

The contribution takes the form of a future green power certificate (GPC). To find out more about GPC's, talk to your Energy Consultant or visit www.krystal-planet.net.

Krystal Planet proudly supports The Freedom PlanSM, as described in the book, The Clean Power Revolution:

- Written by wind energy expert and CEO of Krystal Planet, Troy Helming
- Describes how **The Freedom Plan**, created by the author, can realistically convert America to 100% clean power in 10 years for \$2 Trillion & save the U.S. economy \$20 Trillion.
- It's based on today's wind, solar & hydrogen technology with realistic assumptions.
- It shows simple ways how homeowners can help, and save thousands of dollars of energy costs (\$100 per month or more) without making lifestyle changes.
- The Freedom Plan can be duplicated in any country.
- 256 pages, over 200 references & footnotes
- 3 years of research.
